

## Equivalent Decimals

---

**Are the given decimal numbers equivalent?**

1. 11.9000 and 11.200

- yes  
 no

2. 0.320 and 0.32000

- yes  
 no

**Which of the following decimals is equivalent to 16.22?**

3.  16.22000  
 1.6220  
 1.0620  
 16.022

**Are the given decimal numbers equivalent?**

4. 5.6000 and 5.6

- yes  
 no

**Which of the following decimals is equivalent to 0.0480?**

5.  4.80  
 0.048  
 0.00048  
 4.800

**Which of the following decimals is equivalent to 0.8360?**

6.  8.36  
 0.06  
 8.3  
 0.836

**Which of the following decimals is equivalent to 0.07250?**

7.  7.25  
 0.00725  
 0.0725  
 7.250

**Which of the following decimals is equivalent to 0.3900?**

8.  3.90  
 0.039  
 0.0039  
 0.39

**Which of the following decimals is equivalent to 57.2000?**

9.  57.0  
 5.720  
 57.20  
 572.0

**Which of the following decimals is equivalent to 0.84?**

10.  0.0840  
 84.0  
 0.8400  
 8.4

**Which of the following decimals is equivalent to 27.3300?**

11.  2.730  
 27.33  
 273.30  
 0.027

**Which of the following decimals is equivalent to 9.24?**

12.  9.240  
 9.024  
 92.40  
 924.0

**Which of the following decimals is equivalent to 6.6800?**

13.  6.680  
 6.6  
 6.86  
 0.668

**Which of the following decimals is equivalent to 0.016?**

14.  0.16  
 16.0  
 1.6  
 0.0160

**Which of the following decimals is equivalent to 45.12?**

15.  450.12  
 45.1200  
 4.0512  
 451.200
